10 derway within the United States, including a review
11 of the status of United States basic research in criti-
12 cal aeronautics disciplines including—

13 (A) aerodynamics;

14 (B) propulsion;

15 (C) materials and structures;

16 (D) controls, guidance, and human factors;

17 and

18 (E) flight systems;

19 (2) establishes goals and objectives for United
20 States aeronautical basic research to advance the crit-
21 ical disciplines required by United States industry
22 for such research;

23 (3) identifies the priorities for aeronautical basic
24 research required by industry to advance United
25 States long-term competitiveness;

1 (4) describes the anticipated impact of aero-
2 nautical basic research on United States long-term
3 competitiveness;

4 (5) encourages the transfer of Government-devel-
5 oped technologies to the private sector to promote eco-
6 nomic strength and competitiveness; and

7 (6) identifies opportunities for aeronautical basic
8 research to be performed by minority-owned and
9 women-owned businesses within the aeronautical
10 basic research industry.

11 The Administrator shall annually update the plan, includ-
12 ing a report on progress in achieving the goals and objec-
13 tives identified pursuant to paragraph (2).

14 (b) INDEPENDENT EVALUATION.—The Administrator
15 shall submit the plan developed under subsection (a), and
16 all subsequent annual updates thereto, along with appro-
17 priate programmatic technical, schedule, and financial in-
18 formation, to the National Research Council of the National
19 Academy of Sciences for an independent evaluation of such
20 plan.

21 (c) TRANSMITTAL TO CONGRESS.—The Administrator
22 shall, along with the first annual budget request of the
23 President occurring more than 1 year after the date of en-
24 actment of this Act, transmit to the Congress the plan devel-
25 oped under subsection (a) and the results of the independent

1 review conducted pursuant to subsection (b). Subsequent
2 annual updates to the plan and independent reviews thereof
3 shall be transmitted to the Congress along with subsequent
4 annual budget requests of the President.

5 **SEC. 405. ROLE OF PROCUREMENT IN TECHNOLOGY IN-**
6 **VESTMENT.**

7 The Administrator, in carrying out aeronautical re-
8 search and technology procurement, shall—

9 (1) promote the advancement of state-of-the-art
10 research and technologies;

11 (2) assess and procure, where appropriate, com-
12 mercially available technologies;

13 (3) where appropriate, use performance speci-
14 fications in procuring technologies; and

15 (4) reduce the paperwork requirements associated
16 with procurement.
